

Senior Database Administrator

eQube requires an experienced Senior DBA to join the team located in Las Vegas, NV. In this newly created role, you will join a small team of developers and be an integral part of developing and improving our existing DB solution.

This position will require an individual who is energetic, enthusiastic and able to work under minimal supervision. eQube is a vibrant company who understands that our success comes from our employees. We offer a great casual working environment and flexibility in work schedules.

Please reply with cover letter and resume, stating salary requirements to hr@eqube.com.

Responsibilities

- Identify database requirements by analyzing department applications, programming, and operations; evaluate existing systems and design proposed systems.
- Recommend solutions by defining database physical structure and functional capabilities, database security, data back-up, and recovery specifications.
- Install revised or new systems by proposing specifications and flowcharts; recommend optimum access techniques; coordinate installation requirements.
- Maintain database performance by calculating optimum values for database parameters; implement new releases; complete maintenance requirements; evaluate computer operating systems and hardware products.
- Maintain quality service by establishing and enforcing organization standards.
- Contribute to team effort by accomplishing related results as needed.
- Assist developers with complex query tuning and schema refinement.
- Provide 24x7 support for critical production systems.

The candidate must possess

- MS SQL, (FoxPro nice to have)
- 5+ years MS SQL Server Administration experience required
- Experience with Performance Tuning and Optimization (PTO), using native monitoring and troubleshooting tools
- Experience with backups, restores and recovery models
- Knowledge of High Availability (HA) and Disaster Recovery (DR) options for SQL Server
- Excellent written and verbal communication
- Flexible, team player, "get-it-done" personality
- Ability to organize and plan work independently
- Ability to work in a rapidly changing environment
- Ability to multi-task and context-switch effectively between different activities and teams
- MCTS, MCITP, and/or MVP certifications a plus
- Experienced in Agile development
- Experience working in the online Gaming industry an advantage
- Diploma/Certificate in Computer Science, Engineering or related discipline
